

CALL FOR ABSTRACTS

The fourth International Conference on Construction, Energy, Environment and Sustainability, will take place in Aveiro, Portugal, from 23 to 25 June 2027, and is being organized by Itecons / University of Coimbra in collaboration with the University of Aveiro.

The goal of the conference is to bring together experts and professionals to discuss the challenges facing the construction industry and the built environment in the transition towards a more sustainable, resilient and resource-efficient future.

We invite researchers, engineers, planners, stakeholders, policy makers and other professionals to participate and showcase the latest research, technologies, methodologies and solutions addressing these challenges.

We are looking for contributions on a wide range of multidisciplinary topics arranged in the following general themes:

- Construction Materials and Technologies
- Energy
- Environment
- Building Physics
- Water and Sanitation
- Digitalization, Automation and Advanced Technologies
- Community Challenges and Policies

SUBMISSION TOPICS

We are also inviting distinguished members of the scientific community to organize special thematic sessions focusing on a topic of their choice that fits within the general scope of the CEES 2027 conference.

CEES 2027

4th INTERNATIONAL CONFERENCE

CONSTRUCTION, ENERGY
ENVIRONMENT & SUSTAINABILITY

23-25 JUNE | AVEIRO - PORTUGAL

CONFERENCE CHAIRS

Julieta António - Itecons / University of Coimbra, Portugal

Nuno Simões - Itecons / University of Coimbra, Portugal

Romeu Vicente - University of Aveiro, Portugal

ABOUT ITECONS

Itecons - Institute for Research and Technological Development for Construction, Energy, Environment and Sustainability - is a non-profit organization grounded in the campus of the Faculty of Sciences and Technology of the University of Coimbra established in 2006 to act as a dynamic interface of technology, knowledge and know-how between the scientific community and industry.

Itecons provides applied research, testing, consultancy and training services in the fields of construction, energy, environment and sustainability.

CONFERENCE LOCATION

Aveiro is a vibrant university city in central Portugal, renowned for its canals, distinctive architectural heritage and strong links to research, innovation and industry, providing an inspiring setting for the discussion of the future of construction, energy, environment and sustainability.
